

THE #1 FLIGHT SCHOOL PLATFORM

Less Paperwork. More Flying. Better Pilots.

FlightLogger helps instructors focus on training, not admin. If you're still using paper logs, spreadsheets, or separate tools for grading, scheduling, and student tracking, you're likely spending more time documenting flights than delivering quality instruction.

FlightLogger was built by instructors, for instructors. We make it easy to standardize, digitize, and scale your training program while staying fully compliant.

Built By Aviation Educators, Not Outsiders

FlightLogger was founded by instructors who wanted a better way to track student progress, manage lessons, and support high-quality instruction.

Instructors need tools that actually help with;

MANUAL RECORD-KEEPING

Time-consuming logs lead to errors and inconsistencies.

TRACKING CHALLENGES

Progress is hard to monitor across instructors, students, and phases

Inconsistent Grading

Variability in scoring affects student outcomes and audit readiness

Compliance Stress

Regulatory documentation eats up valuable instructor time

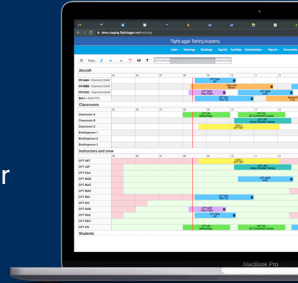

**READY TO STREAMLINE
YOUR TRAINING OPERATIONS?**

PROVEN IMPACT FOR FLIGHT INSTRUCTORS

- ✓ 50% reduction in time spent on documentation
- ✓ 95% student check-ride pass rate (first attempt)
- ✓ Improved instructor satisfaction and onboarding

Trusted by over 210 organizations in 47 countries, FlightLogger empowers instructors, students, and staff with tools that fit seamlessly into the daily rhythm of aviation education.

FLIGHTLOGGER TRANSFORMS YOUR TRAINING OPS MORE EFFICIENT, COMPLIANT, AND SCALABLE:

REAL-TIME STUDENT PROGRESS AND GRADING

Monitor performance and spot issues early. Standardize assessments and auto-calculate pass/fail thresholds

CENTRALIZED RECORDS

Combine flight logs, ground school data, and instructor notes

COMPLIANCE BUILT IN

Maintain accurate, organized records that meet regulatory requirements - ready for any audit, anytime.

MOBILE FRIENDLY

Log training events from cockpit, classroom, or office
