

THE #1 FLIGHT SCHOOL PLATFORM

Scale Without Compromise

FlightLogger powers global flight schools with visibility, compliance, and control. When you're running multiple campuses across regions, even small inefficiencies multiply. Without a unified system, maintaining standards, controlling costs, and growing your operation becomes a logistical and regulatory nightmare.

FlightLogger solves that. Built for flight training at scale, our platform centralizes your training, scheduling, compliance, and reporting — all in one place.

Trusted by over 210 organizations in 47 countries, FlightLogger empowers instructors, students, and staff with tools that fit seamlessly into the daily rhythm of aviation education.

Pain Points Faced by COOs

DISPARATE SYSTEMS

Different tools for maintenance, training, and billing create gaps and manual work

AUDIT OVERLOAD

Meeting compliance across jurisdictions is time-consuming without standardized reporting.

ONBOARDING DELAYS

New locations and instructors slow down without templated workflows and centralized training SOPs.

Data Blind Spots

Lack of real-time performance and utilization data across sites limits decision-making.

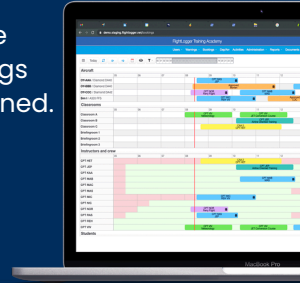

**READY TO STREAMLINE
YOUR TRAINING OPERATIONS?**

WHY LEADING COOS CHOOSE **FLIGHTLOGGER**

FlightLogger empowers COOs to drive scalable growth while reducing risk and manual workload. It's a platform that brings everything together so your people and processes stay aligned.

- ✓ 30% drop in admin overhead via automation
- ✓ 3x faster onboarding of new campuses
- ✓ 100% digital audit readiness
- ✓ Operational growth without staff bloat

FLIGHTLOGGER DELIVERS MORE EFFICIENT, COMPLIANT, AND SCALABLE:

FASTER EXPANSION

Onboard new sites using standardized templates and implementation guides.

MULTI-CAMPUS OVERSIGHT AND VISUAL KPI DASHBOARDS

Real-time dashboards across locations with user-role permissions. Track student throughput, aircraft utilization, and instructor allocation from anywhere.

AUDIT-READY BY DESIGN

Maintain accurate, organized records that meet regulatory requirements - ready for any audit, anytime.

INTEGRATED ECOSYSTEM

Seamless workflows from enrollment to billing, training, and maintenance.
